

Rise Above Risk

Vertikal: Your Partner in Certificate of Insurance and Prequalification Solutions

About Vertikal

The biggest threat to your company is the vendor liability you never saw coming. Vertikal streamlines and automates even your most complex, labor-intensive risk management processes with flexible, intuitive, secure reporting systems that are easy to use.

CertFocus

- **Simplify COI Compliance, Tracking & Management**

Delivers industry-leading COI compliance on a platform that allows you to leverage data to gain valuable insight and mitigate risk.

PreQual

- **Bring Expert Financial Analysis to Vendor Prequalification**

Identifies potential liabilities before they impact your balance sheet and brings a new level of transparency to outside business relationships.

ShieldCor

- **Turn Your Supply Chain Into a Safe, Intelligent and Reliable Data Engine**

Protects your bottom line with advanced data analytics that optimize speed, risk and profit, and transforms the efficiency of your operations.

Prequalified. Insured. Safe.

Hold your vendors, suppliers and third-party contractors to a higher standard.

- Increase transparency in vendor, supplier and contractor relationships
- Collaborate with industry-certified experts on challenging issues
- Lock down your brand and customer security
- Reduce the time, cost and effort of managing complex vendor relationships
- Choose from full-service or self-service options

User-friendly tools and expert support to help you mitigate even the most complex prequalification, financial and insurance compliance risks.

Scalable. Integrated. Customizable.

Vertikal delivers a full suite of risk management products combined. One Platform. One Solution.

Flexible by Design

Other solutions merely diagnose or track compliance. CertFocus cures the issues, directly increasing COI compliance to mitigate risk liabilities across your supply chain and third-party relationships.

- Access our credentialed COI consultants for guidance.
- See data and metrics to consistently screen for irregularities and potential risks.
- Integrate greater COI capabilities without disrupting your current processes and workflows.
- Automate the monitoring of COI compliance, autogenerate and export reports to free your staff for other tasks.

Efficiency Opportunities and Deeper Risk Insights

ShieldCor is a user-friendly suite of supply chain solutions, designed for dependability, risk aversion and ad-hoc data analysis to connect to connect and optimize your entire operational infrastructure. Transform the efficiency of your operations and the effectiveness of your partnerships with ShieldCor's greater intelligence, real-time data and enhanced partner visibility.

- Gather live intelligence on your processes as they happen to improve accuracy and reduce risk.
- Collect, compile, analyze and store data while promoting security, authorized access and communication.
- Stronger reporting means greater protection from the risks of process deficiencies and potential issues and exposures with outside business relationships.
- Deep insight provides the rationale for safety based, Go/No-Go operational decisions.

Integration. Expertise. Insight.

Shed the administrative chore of collecting and managing prequalification data, while gaining greater accuracy and access to actionable insights that help you identify your company's exposure to hidden third-party risks.

- Identify third-party threats across your entire enterprise that could impact your bottom line.
- Improve collection, organization and analysis of prequalification information.
- Integrate new prequalification capabilities and automate repeatable prequalification tasks, freeing your staff for other activities.
- Leverage expert assistance collecting the business data needed, directing data updates and setting vendor follow-ups.

No Risk. No Obligation.

Vertikal Solutions are Tailored to Meet the Unique Needs of Your Business.

Contact us to learn how Vertikal's risk management solutions can help your business become more efficient and effective in managing the insurance, COI compliance and verification, financial and safety requirements across your entire supply chain.
